RESPONSE TO NOTICE TO FILE MISSING PARTS

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

The Notice to File Missing Parts of Application dated July 26, 1995, a copy of which is attached to this Response, appears to have been issued in error. The Notice indicates that the application does not comply with the Sequence Rules and indicates that the applicant must provide an initial or substitute computer readable copy and a paper copy of the "Sequencing Listing." However, the subject application does not contain or disclose either nucleic acid or amino acid sequences. Therefore, applicants respectfully request that the requirement be withdrawn and that they be notified that this action has been taken.

Respectfully submitted,

By

Barbara W. Walker
